PROJECT 1

NILGIRI HOUSE

Location: Chennai
Area: 8000 Sq.ft

The project involves the renovation and interior design of an 8,000-square-foot home in Bangalore, with a unique feature of an open verandah in the center of the home. The client's vision was to create a modern and aesthetically pleasing space that captivates the eye. Emphasis is placed on leveraging the open verandah to enhance the overall design, maximizing its potential for natural light and ventilation. The design should seamlessly blend functionality with contemporary aesthetics, creating a harmonious environment that exudes sophistication and comfort.

PROJECT 2

A-101

**Location: Mumbai
Area: 3500 Sq.ft**

The project involves the renovation and interior design of a 3500-square-foot house located in Mumbai, with the primary goal of creating a spacious, light-filled environment conducive to family living. The client emphasized the importance of maximizing natural light, and ventilation and creating a sense of openness to enhance the perception of space.

Key considerations include space optimization, strategic lighting design, material selection for durability in Mumbai's humid climate, and the integration of greenery to enhance the overall
